

The Time to Choose is Fast Approaching

WAR: The Probability that either the Israelis or the United States will “NUKE” IRAN in September 2007 is running Very High. If this happens, a larger Nuclear Conflict is highly likely. Also likely, the Arabs will (1) stop selling their oil to the U.S. (2) change all the sales they do make to Euros, completely destabilizing U.S. Dollars.

Economy: The United States is broke **on paper**, because the Secret Government which runs the “United States” Federal government has stolen at least 30 \$\$ Trillion dollars from the United States citizens of **public funds**, has diverted them into their own and Private interests pockets using the vehicle of US Laws: Title 28, Section 6, Offshore Corporations for the NSA/ CIA/ ADIA black operations, all spearheaded by the 12 Private Banks comprising the **Federal Reserve Corporation**. They have even stolen \$ 3 Trillion from the Social Security Fund, and left it bankrupt. Presidents George H.W. Bush, President and Ms. Clinton, and the current President George Bush, and the Vice President, have all dipped their hands into the money, **billions of which are in their personal offshore accounts**. The world banking systems are in a virtual state of collapse, as several factors are closing in on the Intelligence agency’s and their crooked operatives. The “Good Faith of the United States” is now complete trash to them.

Few people have any idea of how much is hidden from them by the Jew owned major media. The entire U.S. Economy is about to have a **total collapse**, with complete chaos in every part of America, as 70 % of the jobs will collapse. The “United States” administration is **\$ 3 Trillion beyond budget for the year**, and has stopped payments to other nations in hard currency. They just print more Fiat funny money (deficit spending). The Arabs hold \$ 4 Trillion in U.S. funds, the Chinese hold almost \$ 7 Trillion in U.S. funds now, with balance of payments not being made to them for 6 months. Gasoline will go to \$ 14 a gallon, but you will not be able to get any. All the Jew Corporations who have everyone’s retirement money will do a bankruptcy, and hold on to the money. The media giants tell no one the truth, and have deliberately withheld critical information from the general population, to protect the global crime conspiracy of their Mega Jew families. The Stock Market will completely collapse in October, and the President will declare Martial Law, and put FEMA in charge of the whole country. All these **giant merger** operations between the mega corporations are now, and have been, funded with the stolen \$\$ Trillions from the American people. If all the illegal **thefts were called in and the money put back**, the United States of America would be in good shape. The perpetrators, however, would all go to prison, or be executed for Treason. As there will be a **civil war** when the criminal gangs in Washington move to take over the country, the aftermath after the Government gangsters loose the war will be like nothing ever seen since the Stalin purges.

Society: Riots will break out in all the major cities, and the local Police forces will stay home, quit, or otherwise get out of the way. Assassinations will be commonplace on thousands of crooked politicians and judges and lawyers which have been screwing the People for so long. People will find out that all these Federal Loan guarantees actually have the Federal Government as their mortgage holder, in which the Federal Reserve, acting on it's own to attempt to stay solvent, will promptly foreclose on their home, and student loans, and any other Government backed program.. The Federal Reserve will seize all the Private bank account of everyone, to try to stave off complete erasure of their Ponzi Scheme. The country will soon look like Iraq, with bombed out buildings everywhere, and starving people in the streets.

Enter the REX 84 Plan: There is already in place a **Plan for the complete takeover of America** by the elite Mega Jews, with the Federal Government as the action team. The Plan is called **REX 84**, and has subordinate plans: **Operation Cable Splicer** – which will provide for roundup and **disposal** of the Congress, the Supreme Court Judges, all the Federal Judges but 11, the Governors, Lt. Governors, State Legislators, State Supreme Court Judges, Mayors and Police Chiefs in major cities. The next subordinate plan is called **Garden Plot:** It will take out all the **lesser Jews** who control the major media, the subordinate banks, and hold the assets keys for the states, then begin the long process of capturing all the Tax protesters and renegades to being forced into slavery. All of America will be placed under control of **FEMA**, with 10 districts (already in place) each with a regional director with absolute dictatorial power of life and death. There are already 314,000 foreign Troops in place on U.S. Soil to run the programs. There are already 39 major concentration / death camps up and running, each which can handle 22,000 people, and over 600 smaller work camps and transportation points, all already in place for orderly disposal of the **Enemies of the State**. There are 21 Presidential Executive Orders in place to carry all this out, and they even show up on the Firstgov web site. All the big camps and 23 smaller ones have gas chambers and crematoriums in place. 11 of the camps already have occupants (about 7,800) of illegal aliens and political prisoners.

Knowledge of all the following has been available on the Internet for Years.

Google: REX 84 , Google : Operation Cable Splicer, Google: Operation Garden Plot. The author of this article has personally checked out 16 of the camps in 11 states. **This is a real deal**, all built with US Taxpayer dollars, but without their knowledge. The U.S. Troops could not be counted upon to execute American citizens, so the UN Troops Germans, Checks, Russians, and Serbs will do the Job. The National Guard might line up on the other side of the street, and oppose this illegal takeover by the International Banking Cartel gangsters, so the Foreign troops will take care of business, operating as UN Troops to “ Restore Order “, at the request of FEMA. Simple, the commander in chief just issues an order for the Guard and regular forces to stand down, just like he did on the morning of 9/11, when there normally would have been 32 fighter wings in readiness to cover the U.S. skies, but at 9 am all were stood down. Curious.

**Every Police Officer and Public official will soon have to choose-
murder your own people-and join the FEMA gangsters or fight**

OOPS: Slight Change in the Big Plan

Enter Leo Wanta, an ambassador, and former NSA/ CIA / FBI/ Secret Service operative, and director of the Commercial War, against other countries monetary systems, begun under President Ronald Regan, which brought down the walls in Berlin and Russia, ending the cold war. Leo Wanta traveled all over the world, and secured loans totaling 27.5 Trillion Dollars, which was used to move and maneuver the world money markets, to bankrupt different countries, and take them out of the play. The problem, was that when Regan left office, the next 3 Presidents and administrations full of gangsters, stole the \$ 27.5 Trillion in funds, and laundered them through the Title 28 Section 6 covert operations funds, offshore, and put them into the pockets of their co-conspirators, and themselves. All of this Public Money has been stolen, and is being used to fund all the mega corporation buyouts and mergers you see on the news every day. The takeover of America must be completed by 2012, because that is when repayment of the loans is DUE to the origination banks.

Leo Wanta was arrested, and held illegally incognito for many years, and the conspirators in the CIA and covert operations groups of gangsters told everyone he was dead. Not true, and friends helped him get out in 2003, and the truth has since surfaced among the World Banking Community, but been entirely hidden by the Jew controlled mass media. Now the conspirators are running scared, doing desperate acts to stay out of jail, and doing more illegal acts to keep the Fraud going. Check it yourself: Google: Leo Wanta When you finish there, go to <http://www.worldreports.org/news/> and read the summary.

This whole deal **has really screwed up the Plan** for Total Takeover of America, and then the World. Read the details of the activities of the Gangsters who have been running the U.S. Government. Read the Research Papers posted on this web site **CitizensForTruthInGovernment.org**, and go to <http://sedm.org> and then to the champion of the People: <http://www.givemeliberty.org/> and see what other Citizen Patriots are doing to stop the illegal activities of the Gangsters.

If you take any actions, that is strictly up to you. 47 Million United States of America citizens have stopped paying any illegal Income Tax (there is no law) and is working actively to thwart the gangsters at every turn. It really is difficult to implement any corrective actions, with the Federal Courts in the conspiracy, and the U.S. Congress brain dead with fear where they will not do their duty and stop the Gangsters. Thousands of us are trying our level best to Inform other Citizens, so they know their rights, and will support the other citizens taking actions. Our aim is to **avert** a Civil War, and the aimless deaths of Billions of people from a Nuclear War. We hope the gangsters can be stopped without Force, but as the clock ticks away the minutes, **time is running out.**
